

MICRODERMABRASION

Microdermabrasion is a quick safe and effective form of exfoliation for all skin types and colors with no downtime and virtually no discomfort.

Jamak Beauty Medi- Spa uses the world's first FDA approved microdermabrasion system of a diamond-imbedded tip that gently removes the upper layer of dead skin cells leaving skin smoother, brighter and younger looking. It is painless and usually takes 15-40 minutes, depending on the body area.

Who can benefit from Microdermabrasion?

Everyone - men and women of any skin type or colour. Skin that is aging, congested, flaky, dry, devitalized, thickened, blemished, dull and sun damaged can be rejuvenated and refreshed. Blotchiness, uneven skin tone and texture will also be improved.

What areas can be treated?

The most common areas that are treated are the face and neck. In addition we can treat the chest, shoulders, back, hands, knees and elbows. Anybody area can be treated.

What are the benefits of Microdermabrasion?

- Reduction of appearance of stretch marks, age spots, pigmentation, fine lines, wrinkles, Reduction of enlarged pores
- Decreased appearance of scars from trauma, acne, chicken pox
 - Improved appearance of sun damaged skin

How many treatments do I need?

A Series of 6 treatments scheduled 10-15 days apart is recommended. After optimal results are achieved, one or two treatments per month are suggested to maintain results.

Are there any side effects?

Since there is minimal discomfort and no healing time, normal activity can resume immediately after treatment. Experiencing a slight tingling and tighter skin is normal. Some individuals may experience light flaking of the skin, therefore, it is important to use a good moisturizer as advised by our skin therapists.
